

MAV DAY!

Re-examining Canberra's deadliest plane crash

On 13 August 1940, Canberra's most fatal air disaster took place when a Hudson bomber crashed into a hillside near Canberra Airport, killing all on board. To mark the 73rd anniversary of the Canberra air disaster, the ACT Australian Science Communicators have brought together a team of forensic experts to walk us through several possible scenarios of the ill-fated flight using today's cutting-edge forensic techniques.
